Lasotronix
LASERS FOR GENERATIONS

DIODE LASER COURSE
Lasotronix

We invite dentist and Lasotronix's laser users to an advanced course on the application of the Lasotronix diode laser. The course includes theoretical sessions, live clinical demonstrations, and hands-on workshops.

25th October, 2025

Cluj-Napoca, Romania

Cost: 500 euros*

Instructor: Dr. Bogdan Crișan

"Discover the advantages of a diode laser in your practice! I invite you to join the Lasotronix course, from innovation to utility.'"

What you'll learn:

- Interaction of laser radiation with oral tissues
- Applications of the diode laser in periodontology, surgery, and dento-facial aesthetics
- The role of lasers in photobiomodulation and PAD disinfection procedures
- Laser-assisted diagnostics in oral pathology

Practical skills:

- Periodontal curettage and sulcus conditioning
- Gingivectomy, crown lengthening, frenectomy, vestibuloplasty
- Laser photobiomodulation, PAD disinfection, and oral diagnostics
